OTE-1625-87

MEMORANDUM FOR: Director of Security

FROM:

Director of Training and Education

SUBJECT:

Security at Recent OTE Conference

1. I would like to commend the Office of Security guard and escort services for their outstanding support provided during the 17 July conference on superconductivity held in the Agency auditorium. They performed very professionally and were courteous and supportive to the 150 or so non-Agency visitors. In a few instances of crossed signals on whether a guest had actually been invited, they responded promptly, thoughtfully, and in a manner that averted embarrassment to the Agency. [redacted] and his staff were particularly helpful.

2. Please extend my thanks to all those in Security who did such a fine job. A conference of this sort brings people to the Agency who may form their opinions about us on the basis of one day's experience. The efforts of your staff sharply raised the probability that those opinions will be positive ones.
